Innovative Spreadsheet Management Solutions

Trust the data that drives your business. Accuracy. Control. Insight.

Make decisions based on data you can trust

Incisive Software develops and delivers award-winning spreadsheet management software, empowering companies to make decisions based on data they can trust. Our software identifies, manages, and reduces risk exposure in business processes that depend on spreadsheets.

While other spreadsheet management solutions are manual, expensive, and highly complex, Incisive's solution employs a modern, automated approach to provide greater accuracy, control, and insight into an organization's most complex, sensitive, and business-critical spreadsheets, providing accurate and consistent data they can rely on.
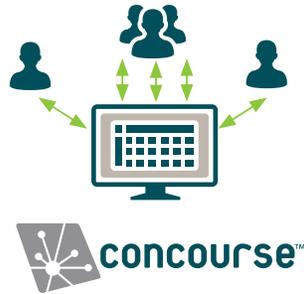

Protect your company's resources and reputation

Many companies put their data at risk through a lack of comprehensive spreadsheet controls. Inaccurate and inconsistent data puts companies at a disadvantage. Increased spreadsheet risk can threaten a company's revenue and reputation. When proper spreadsheet controls—combined with the right technology—are in place, companies make their critical business decisions based on accurate data, data they can trust.

Incisive Software: Spreadsheet Management Solutions

Improved quality, productivity, visibility, and experience

Incisive Software: Spreadsheet Management Solutions provides the most influential corporations in the world essential visibility and control to manage the risks associated with their business-critical spreadsheets. This Risk Resilient™ posture allows organizations to use, evolve, and leverage these critical spreadsheets with more confidence, anticipating and reducing exposure and facilitating better decision making.

Xcellerator™	Concourse™	Locator™
investigation	continuous monitoring	discovery
validation	change management	risk ranking
comparison	integration with ECM	reporting

Xcellerator empowers spreadsheet users to efficiently do their jobs with a high degree of accuracy. Working seamlessly within Microsoft Excel®, Xcellerator detects and helps resolve errors and risk, as well as provides insight into spreadsheet construction.

Developed for all levels of spreadsheet users, Xcellerator allows organizations to:

- Locate formula problems
- Manage external references for completeness and accuracy
- Discover hidden information
- Gain visibility into spreadsheet structure

Concourse offers an enterprise-grade collaboration and controls environment with a simple, user-friendly interface. Easily build reliable and scalable processes that ensure organizational compliance and eliminate risk inherent in an unmanaged environment.

Managing spreadsheet risk has never been easier. Concourse allows organizations to:

- Monitor spreadsheet usage in near real-time to uncover risk
- Demonstrate compliance with powerful reporting tools
- Facilitate collaboration to ensure data integrity
- Manage changes with customizable alerting at the worksheet or even cell level
- Create and assign workflows

Locator delivers fast, accurate and comprehensible spreadsheet discovery and risk assessment. Using flexible and configurable user-defined attributes and priorities, Locator helps organizations identify their riskiest spreadsheets and offers transparency into its inherent risk.

Building an inventory and risk assessment profile has never been easier. Locator facilitates organizations to:

- Find all spreadsheets across the network
- Build a risk profile
- Prioritize spreadsheets by risk

Dedicated to customer success

Incisive Software is dedicated to our customers' success. Our F100 multi-national customers are among the most influential companies in the world, and are continually innovating, expanding capabilities, and improving the user experience. Our Silicon Valley-based engineering team can act quickly to respond to the needs of our customers by refining features and adding functionality. We believe in developing a quality product that is available to everyone by adding scalable, configurable capability for all, as opposed to pursuing custom development.

This is best exemplified in our core principles:

Straightforward simplicity
Easy to implement. Easy to use. Easy to scale.

The "right" amount of process
Realistic. Repeatable. Flexible.

Unwavering commitment to our customers' success
Dedicated team. Proven approach. Ongoing support.

Continuing innovation
Constantly evolving. Customer-driven. Future-ready.

With Incisive Software solutions, you have control of your spreadsheets, so you can trust the data that drives your business.
